PRESS RELEASE

CDML receive NEBB Certification for Building Systems Commissioning

Toronto, October, 2016:

CDML are delighted to announce that as of August 2016 we are now NEBB Certified for Building Systems Commissioning – HVAC. NEBB are renowned Globally for being the foremost provider of education and certification within the Commissioning and Testing Adjusting and Balancing (TAB) industries.

CDML Director Mark Boswell was quoted as saying "This is a major milestone achieved in CDML's ongoing commitment to offer our current and future clients the highest level of Commissioning services possible. Through our continued education and certification with NEBB we are now positioned as the first single service Commissioning Consultancy in Canada to offer NEBB certified commissioning".

Established in 1971, the National Environmental Balancing Bureau (NEBB) is the premier international association of Certified Firms that perform Building Systems Commissioning, Building Enclosure Testing, Cleanroom Performance Testing, Fume Hood Testing, Retro-Commissioning, Sound and/or Vibration Measurement, and Testing, Adjusting, and Balancing of HVAC systems.

In addition to certifying firms and individuals, NEBB is the leading source of industry information providing technical and Procedural Standards, publications, study courses, and newsletters"

Established in 2008 CDML are Canada's largest independent nationwide commissioning consultant, with offices in Toronto, Ontario and Edmonton, Alberta. CDML's service offerings include building commissioning, commissioning management, retro-commissioning, Converge Canada's only digital O & M Manual and AiTag the dynamic equipment tagging system.
